

Came across the website searching for another...I have had this Cox treatment and it still on going for maintenance and I want to tell you that it has been wonderful!!! I wish I could tell everyone and i try my best to do so....My latest Chiropractor is the best I have been to but he is not listed by you...he should be because he is the very best...We do not have many on the list from this area (Orange county, Calif.)....this should be advertised somehow .... [sic]....I had horrific leg pain from L-5 and it was a miracle that I even heard about COX... I was a candidate for surgery.....How can we get the word out there???? If you want a testimony, let me know!!!!
